

i-Panel[®]

The Original

Sri Lanka's #1 Interior Panel

ipanel.lk

Sri Lanka's #1 Ceiling Panel

For over 15 years, **i-Panel** has shaped the interiors of Sri Lanka's most distinguished spaces.

More than a ceiling or wall solution, **i-Panel** represents architectural precision, aesthetic depth, and enduring performance.

Where craftsmanship
meets performance.

Proudly manufactured in Sri Lanka to international standards, iPanel is engineered to complement contemporary design while withstanding the demands of tropical climates.

Why Us

Built for Generations

Engineered to tolerate Tropical climates. Water proof, fire-retardant, and 100% termite & moth proof.

Limitless Possibilities

Match any architectural vision with our extensive palette. From the warmth of local timber grains to the modern elegance along with many profile designs to chose from.

Effortless Installation

The "Click-it" System Quick, seamless installation with no extra trims required. Lightweight design means faster completion and lower labor costs.

Maintenance Free

Eliminate the need for sanding, priming, or painting ever. With washability and color stability technology, your ceiling/ wall will maintain a fresh appearance for decades to come.

i-Panel[®]
The Original

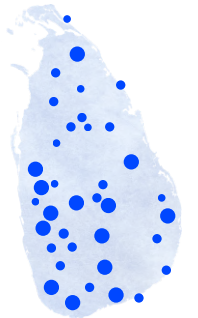

Up to 15 Years Warranty
